Create Event

Details

1. Enter your your Event Details, Add a Title, Event Image & Description (description is optional).

The screenshot displays a dark-themed web interface for creating an event. At the top, there are three tabs: 'DETAILS', 'ACCESS', and 'STREAMS'. The 'DETAILS' tab is active. Below the tabs, the section is titled 'EVENT DETAILS' with a sub-instruction 'Enter Event Related Details'. The form is divided into two main columns. The left column is for the 'Event Image', showing a red square with a white circular logo and the text 'ODIENCE' repeated. Below the image, it specifies 'min image dimensions: 500 x 500' and 'max file size: 20 MB'. The right column contains the 'Event Title' field with the text 'Odience Support' and a '45 Characters Remaining' indicator. Below that is the 'Event Description (optional)' field with a 'Maximum 600 Characters' indicator.

Event Type

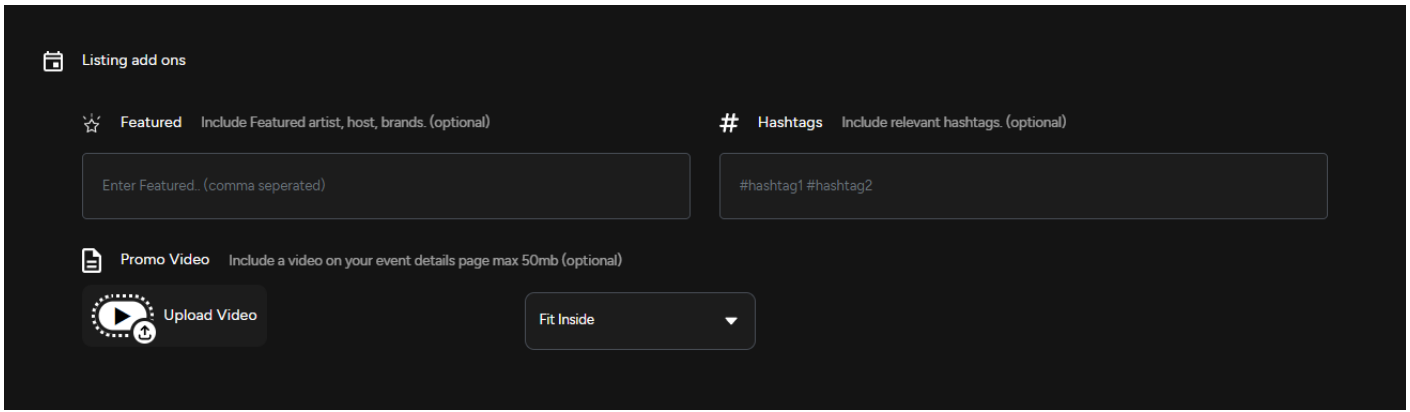

2. Select from the variety of Event Types offered.

[Event Type.png](#) type unknown

Listing Add Ons

3. Include featured artists, host and brands. Use relevant hashtags & upload a promo video to engage your audience.

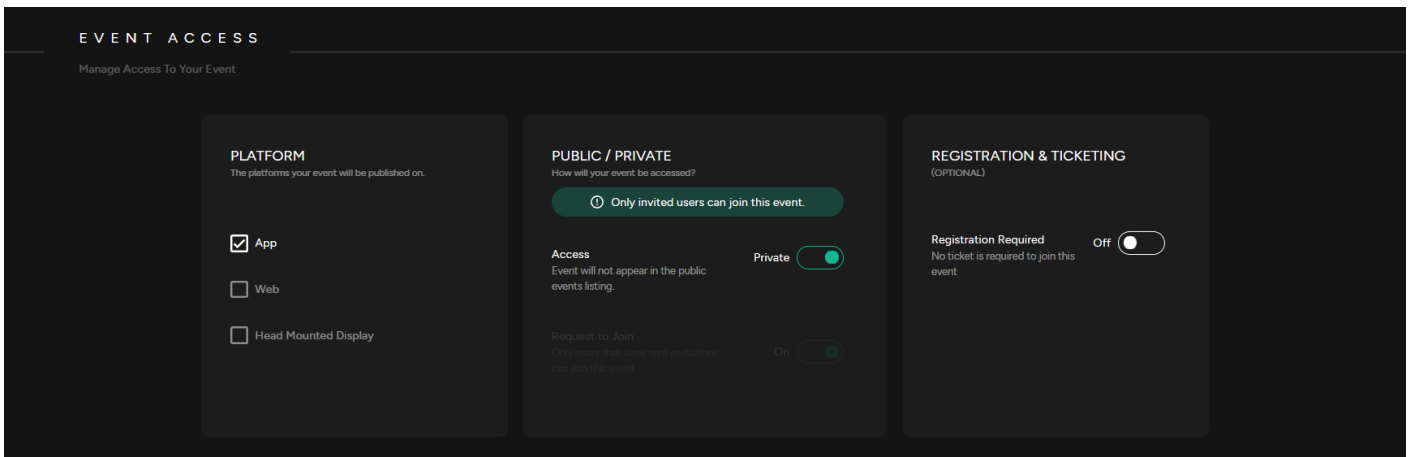

Note: All Listing Add Ons are optional.

3. Include featured artists, host and brands. Use relevant hashtags & upload a promo video to engage your audience.

Access

4. Select which Platform your event will be published on. Publishing options include our mobile app, the web client, or using a VR head mounted display. Odience supports all VR headsets, including Vision Pro

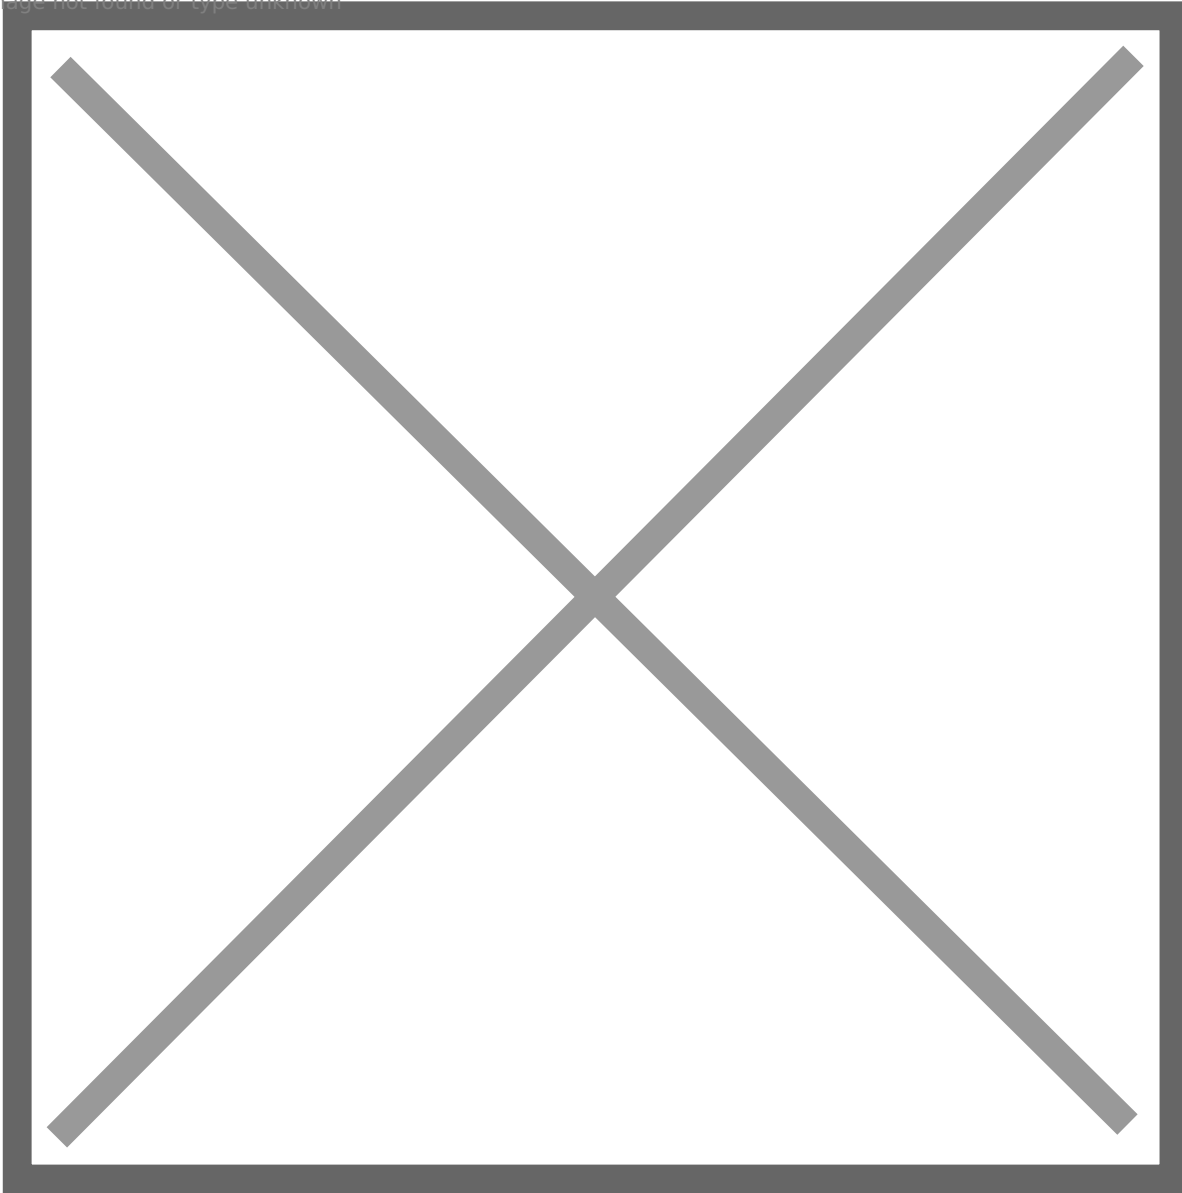

5. Public / Private

- Private Event: A Private Event does not appear in the public events listing. Users will need to be invited to access the event.
- Public Event: A Public Event is listed in the public directory and visible to everyone.
- Request to Join: If enabled, users will need to request to join the event.

6. Registration & Ticketing (*optional*): Enable registration before joining your event. Set-up a ticketing system that allows you to administer free or paid tickets. Select a platform to distribute your tickets, pick a currency & include ticket classes to sell different types of tickets.

Image not found or type unknown

7. Select the Start/End date of your event, set a capacity & add an event location.

Streams

8. Pair a 360 Camera by scanning QR code in the pop up screen or create and then assign an RTMP stream to your event.

- See our detailed guide on how to [Pair a 360 Camera](#) or how to [Create an RTMP Stream](#).
