# App Video Wall

## Create App Video Wall

- Whether you are setting up a Web or App Video Wall, the configuration process is identical. Here's how to create your very own App Video Wall

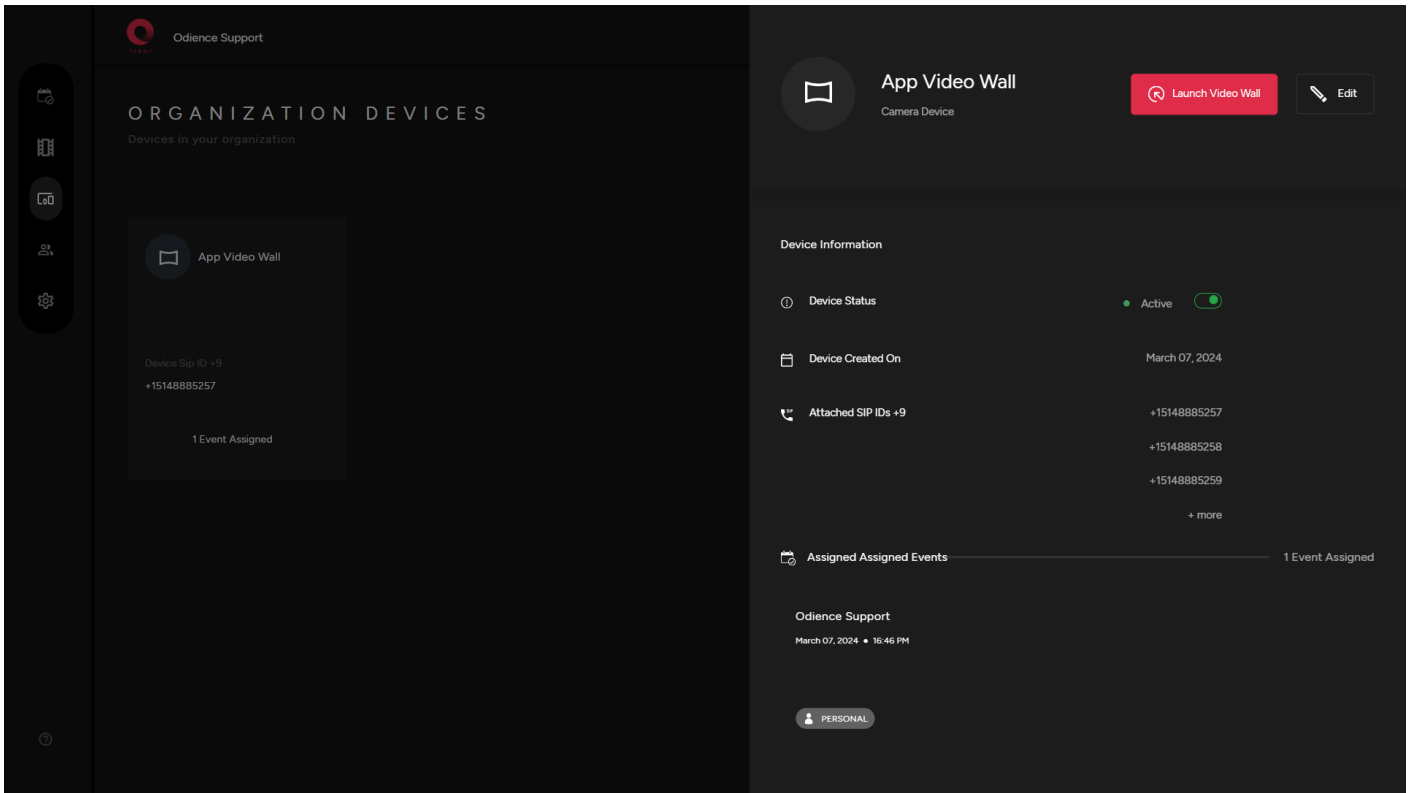

1) Provide a Wall Name, select the Wall Type & then Assign it to an event.

The screenshot shows a dark-themed configuration page titled "ADD VIDEO WALL" with the subtitle "Enter your Device details." The page contains two main input sections on the left and an event assignment section on the right. The "Wall Name" section has a text input field with the placeholder "Enter Device Name". The "Wall Type" section has a dropdown menu currently set to "APP". On the right, there is a calendar icon labeled "Assigned Event" and a red button labeled "Assign an Event". Below these is a large dashed box containing the text "There is no event assigned to your Device currently".

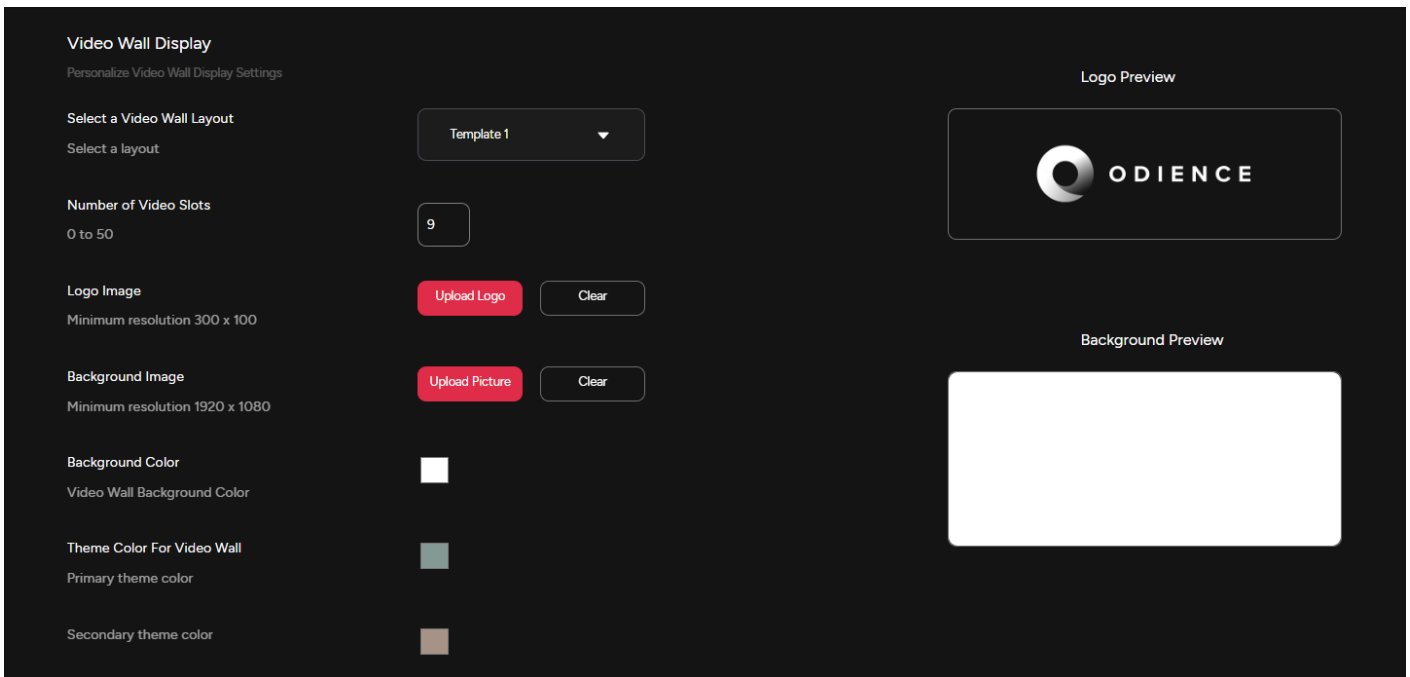

## Launch

2) Launch App Video Wall and go through installation process.

## Customize

3) Customize Video Wall display settings to fit your style.

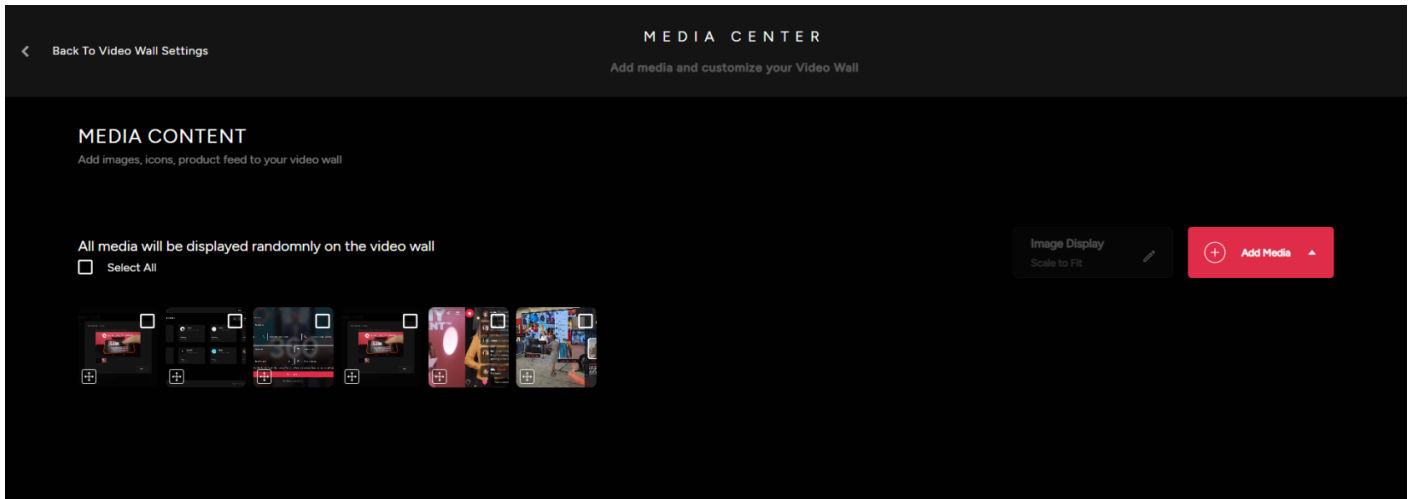

4) If Stream Chat is included, personalize stream message settings to fit your style.

5) If Poll Bot is included, personalize Poll Bot Display Settings

## Media Content

5) Personalize and manage the content that will appear on the Video Wall. Upload images, videos, import items from Event Product Feed or add icons from our Icon Packs.

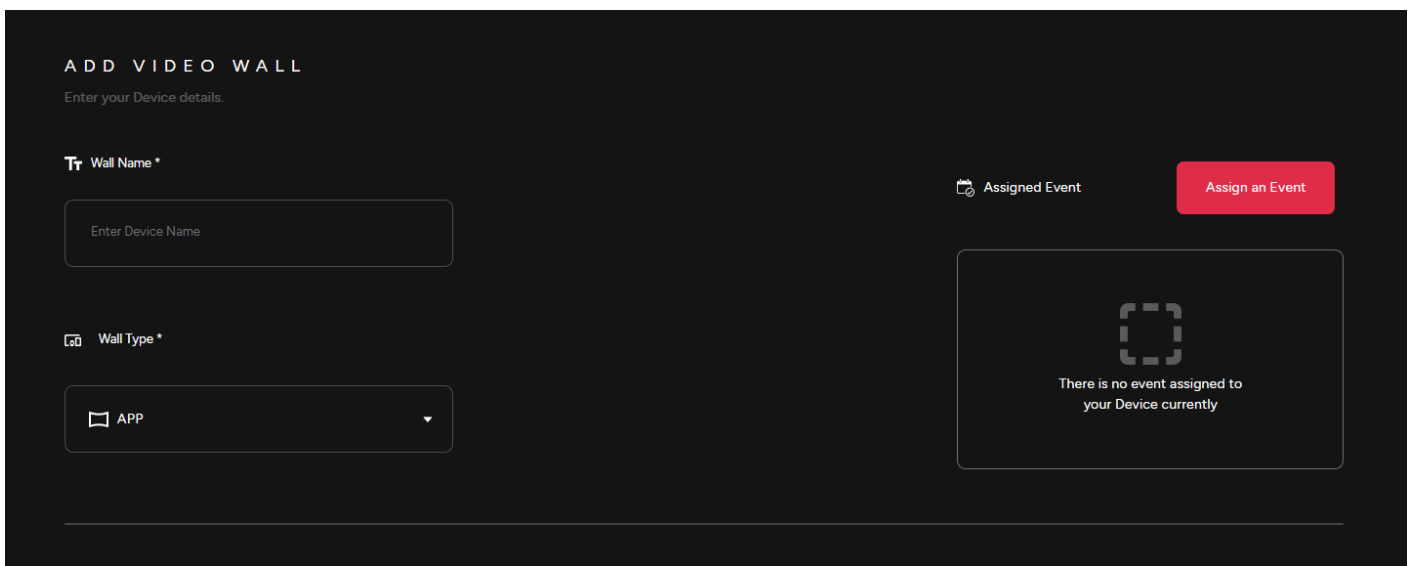

# Web Video Wall

## Create Web Video Wall

- Whether you are setting up a Web or App Video Wall, the configuration process is identical. Here's how you can create your very own Web Video Wall.

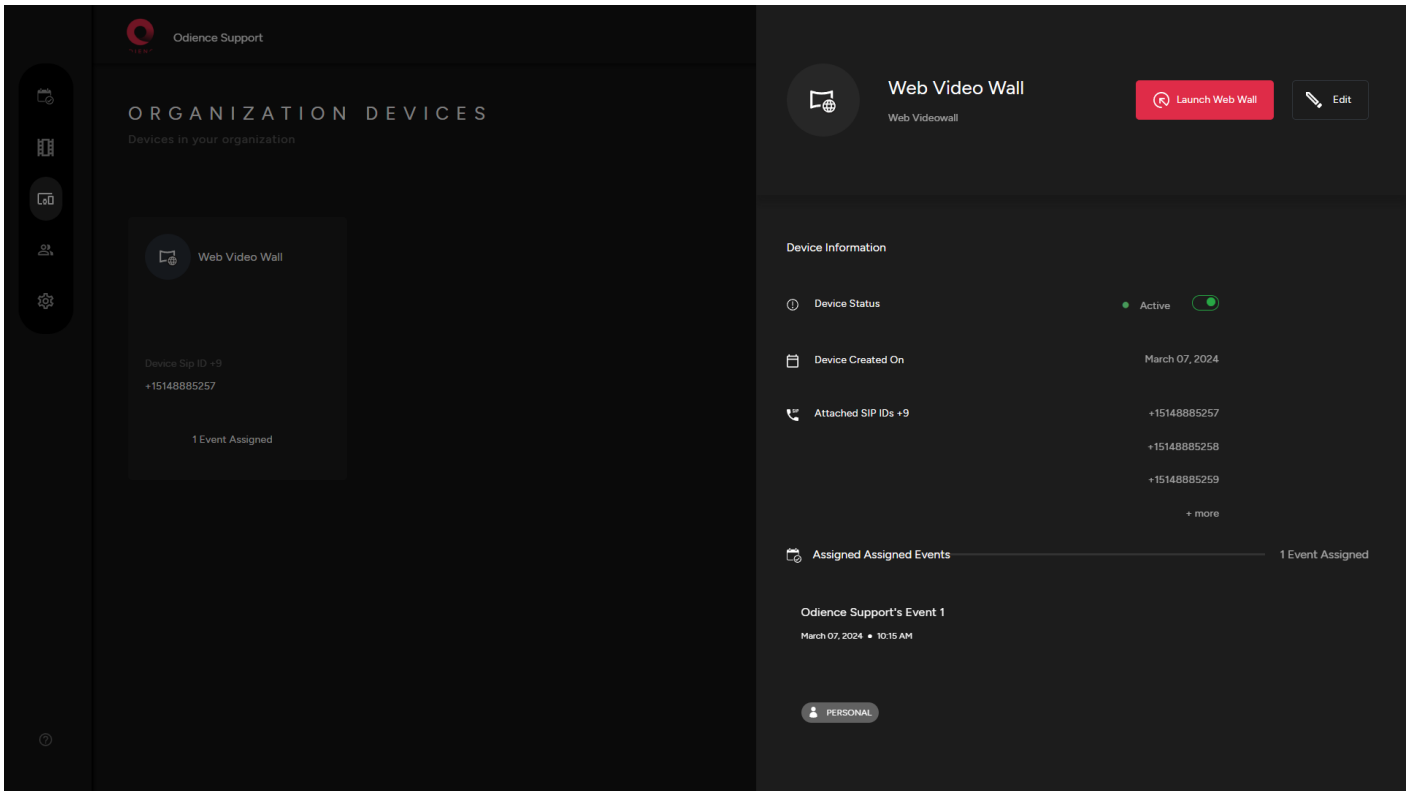

1) Provide a Wall Name, select the Wall Type & then Assign video wall to an event.

The screenshot shows a dark-themed configuration page titled "ADD VIDEO WALL" with the subtitle "Enter your Device details." The page contains two main input sections on the left and an event assignment section on the right. The "Wall Name" section has a text input field with the placeholder "Enter Device Name". The "Wall Type" section has a dropdown menu currently set to "APP". On the right, there is a calendar icon labeled "Assigned Event" and a red button labeled "Assign an Event". Below these is a large dashed box containing the text "There is no event assigned to your Device currently".

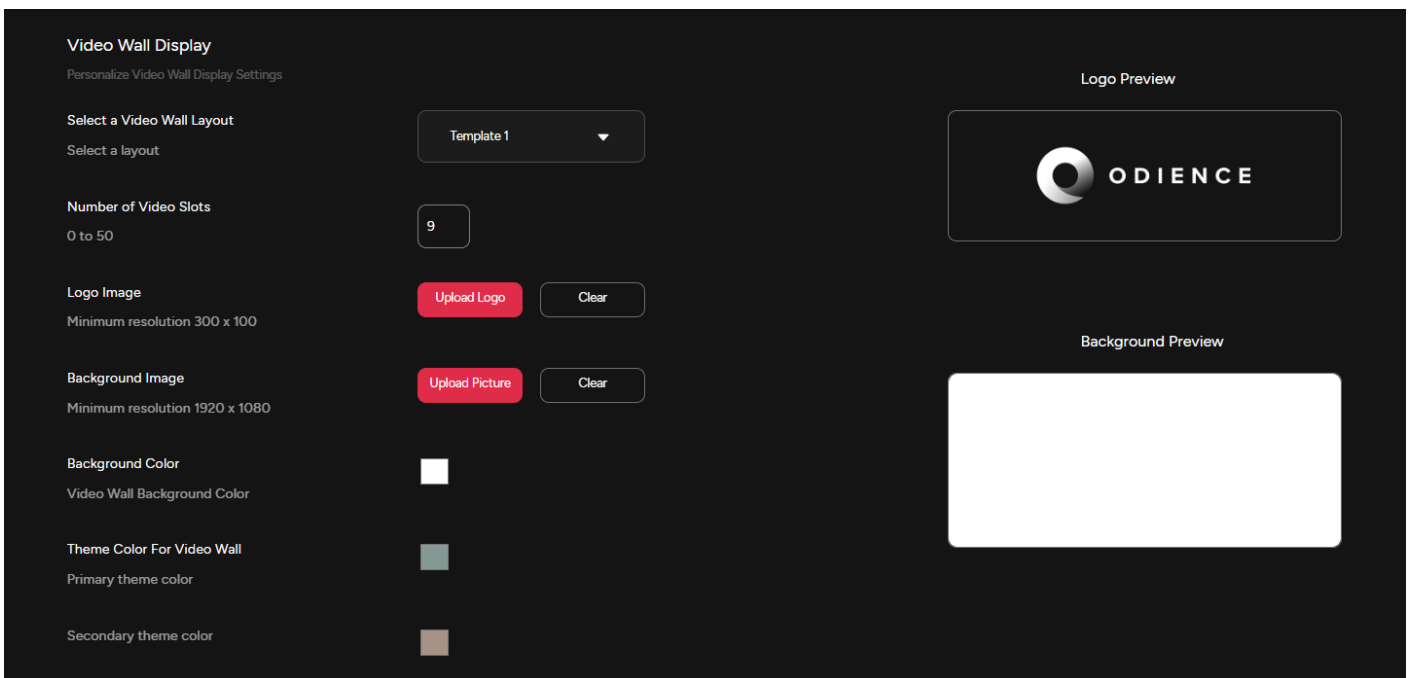

## Launch

2) After creating your Video Wall, click on your newly created device & launch Web Video Wall.

## Customize

2) Customize Video Wall display settings to fit your style.

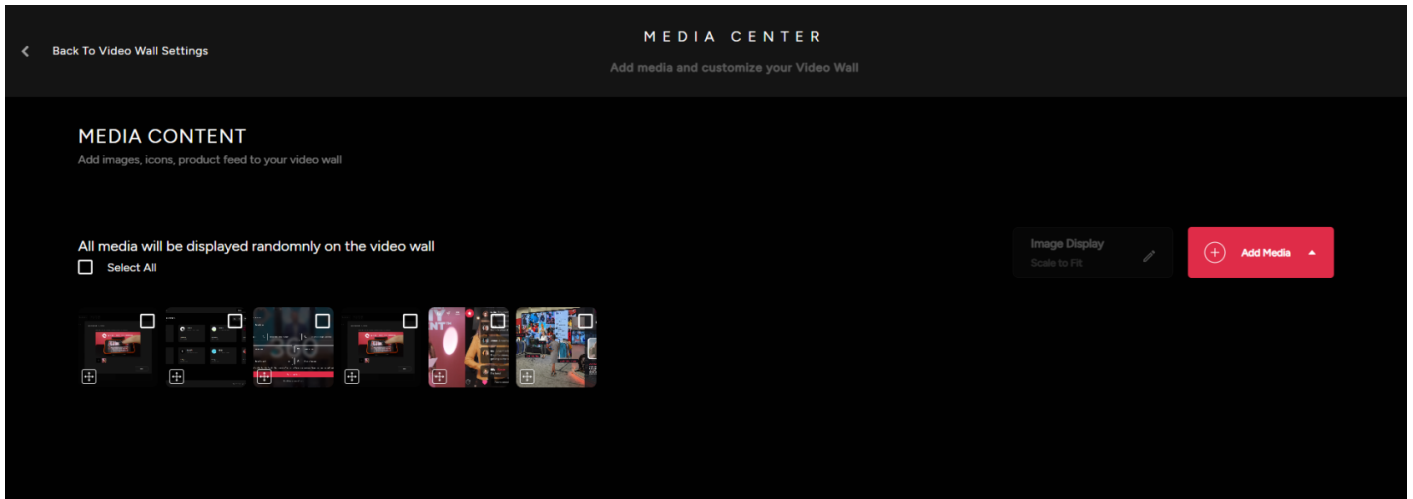

3) Personalize Stream Message Settings.

4) Personalize Poll Bot Display Settings.

## Media Content

5) Customize & manage the content that will appear on the Video Wall. Upload images, videos, import items from Event Product Feed or add icons from our icon packs.
