# Video Wall

# App Video Wall

## Create App Video Wall

- Whether you are setting up a Web or App Video Wall, the configuration process is identical. Here's how to create your very own App Video Wall

1) Provide a Wall Name, select the Wall Type & then Assign it to an event.

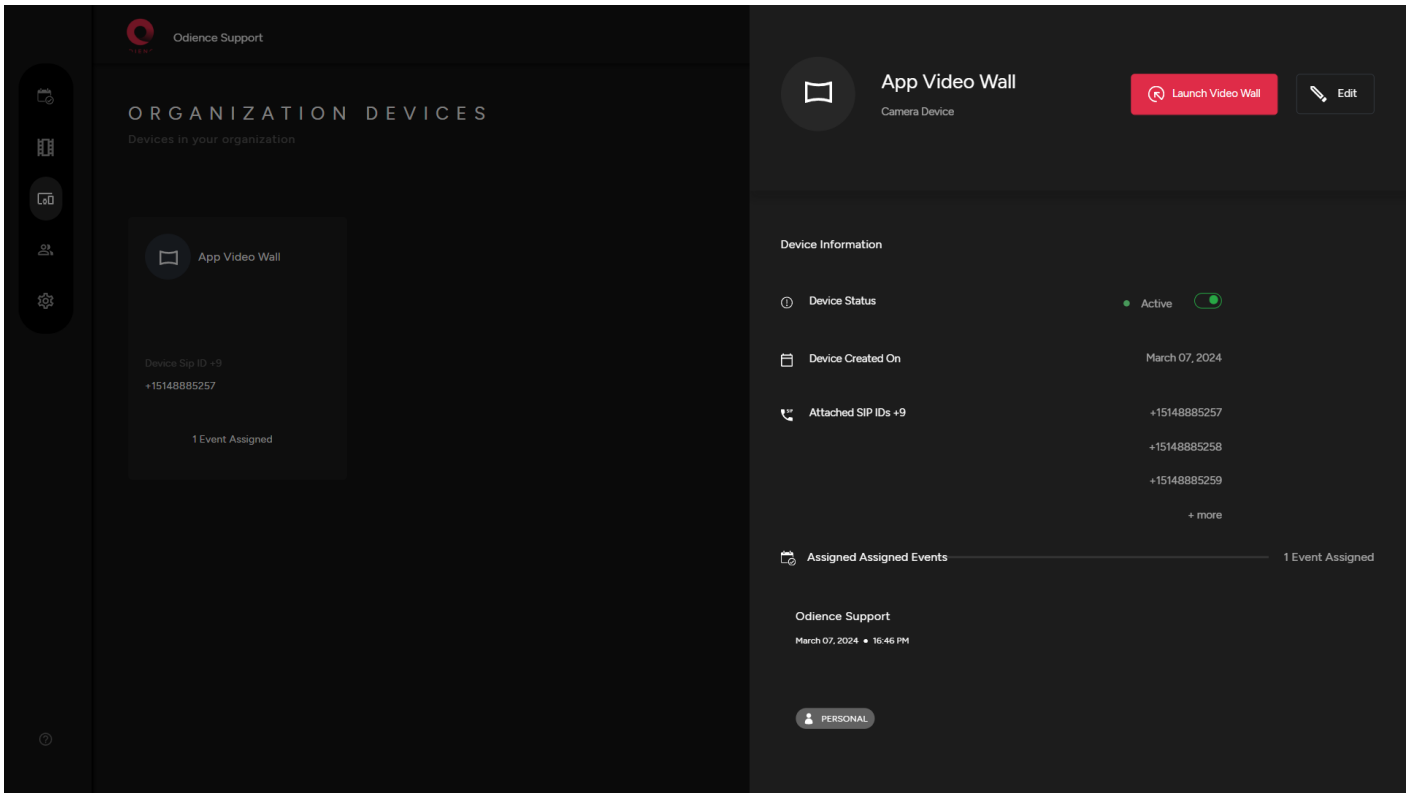

The screenshot shows a dark-themed configuration page titled "ADD VIDEO WALL" with the subtitle "Enter your Device details." The page contains the following elements:

- Wall Name \***: A text input field with the placeholder "Enter Device Name".
- Wall Type \***: A dropdown menu currently showing "APP".
- Assigned Event**: A section with a calendar icon and a red button labeled "Assign an Event".
- Event Status**: A dashed box containing the text "There is no event assigned to your Device currently".

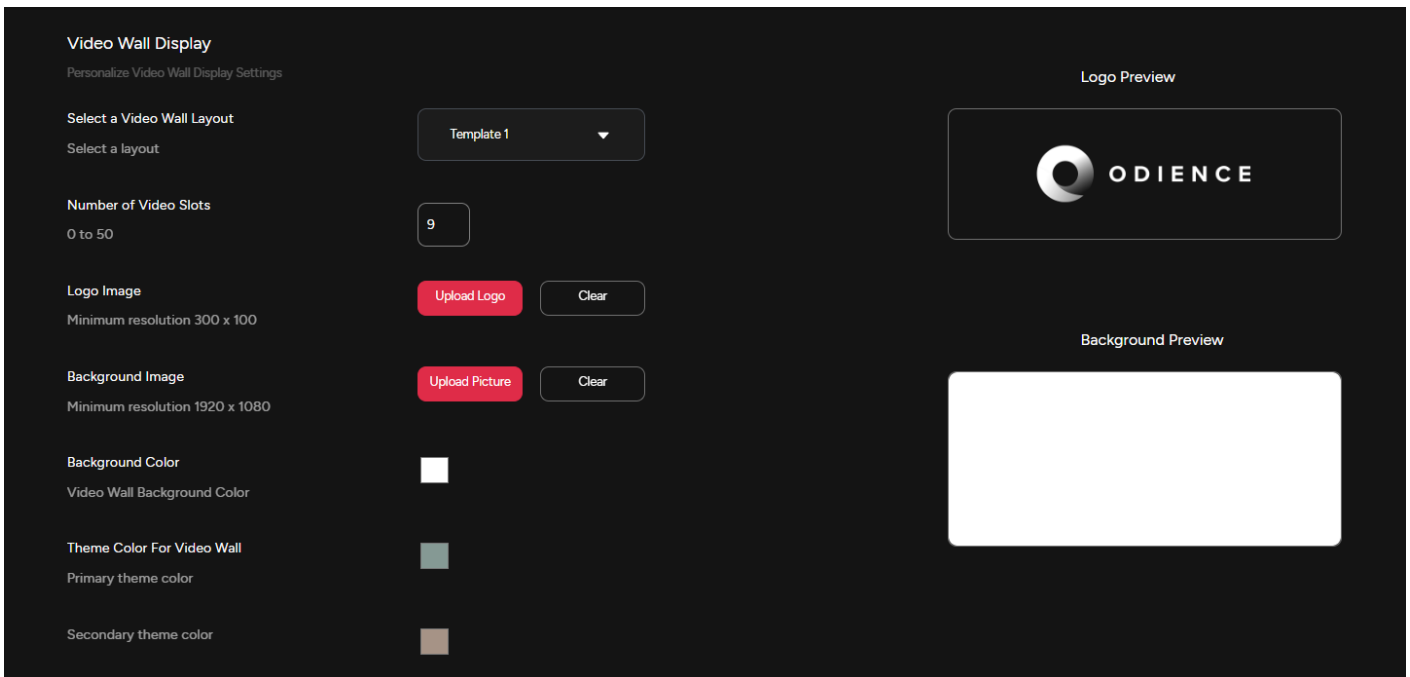

## Launch

2) Launch App Video Wall and go through installation process.

## Customize

3) Customize Video Wall display settings to fit your style.

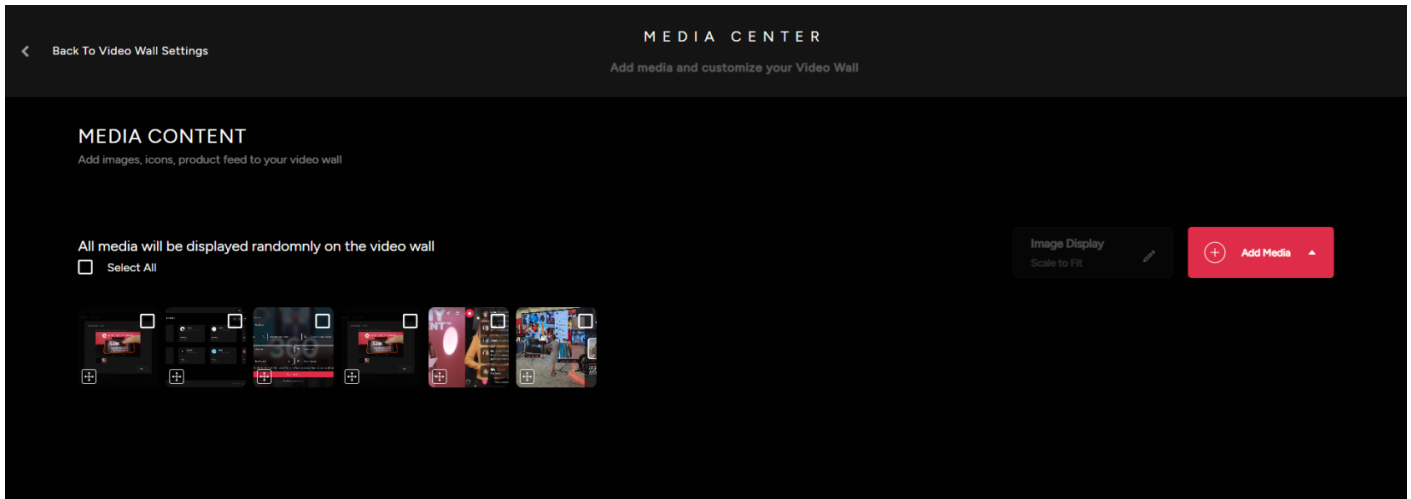

4) If Stream Chat is included, personalize stream message settings to fit your style.

5) If Poll Bot is included, personalize Poll Bot Display Settings

## Media Content

5) Personalize and manage the content that will appear on the Video Wall. Upload images, videos, import items from Event Product Feed or add icons from our Icon Packs.

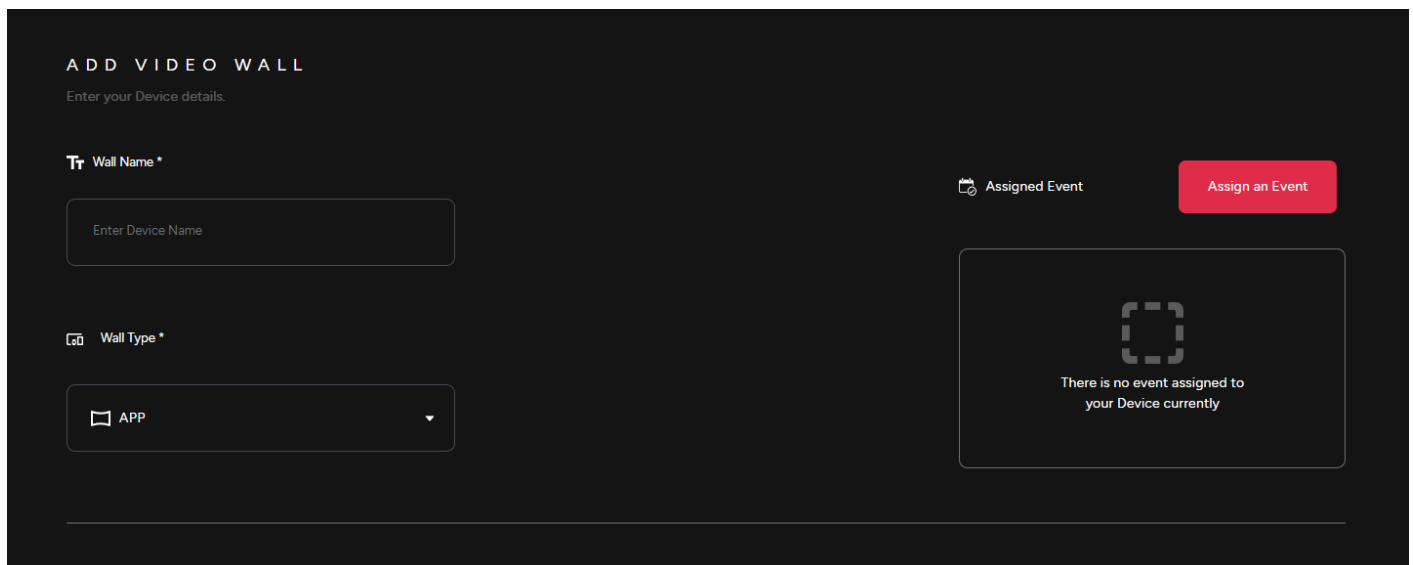

# Web Video Wall

## Create Web Video Wall

- Whether you are setting up a Web or App Video Wall, the configuration process is identical. Here's how you can create your very own Web Video Wall.

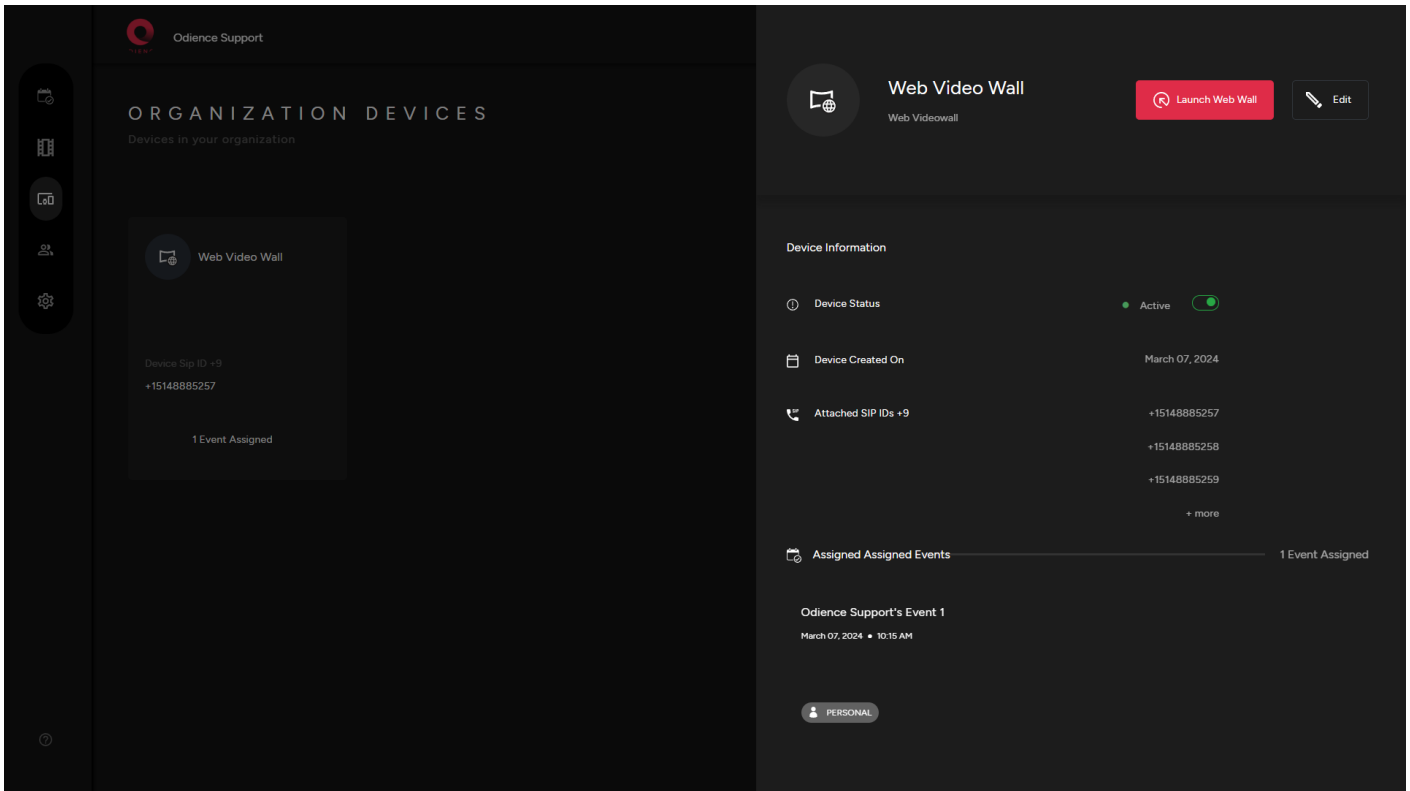

1) Provide a Wall Name, select the Wall Type & then Assign video wall to an event.

The screenshot shows a dark-themed configuration page titled "ADD VIDEO WALL" with the subtitle "Enter your Device details." The page contains two main sections. The first section, "Wall Name \*", features a text input field with the placeholder "Enter Device Name". The second section, "Wall Type \*", includes a dropdown menu currently set to "APP". To the right of these fields, there is an "Assigned Event" section with a calendar icon and a red "Assign an Event" button. Below this is a large dashed box containing the text "There is no event assigned to your Device currently".

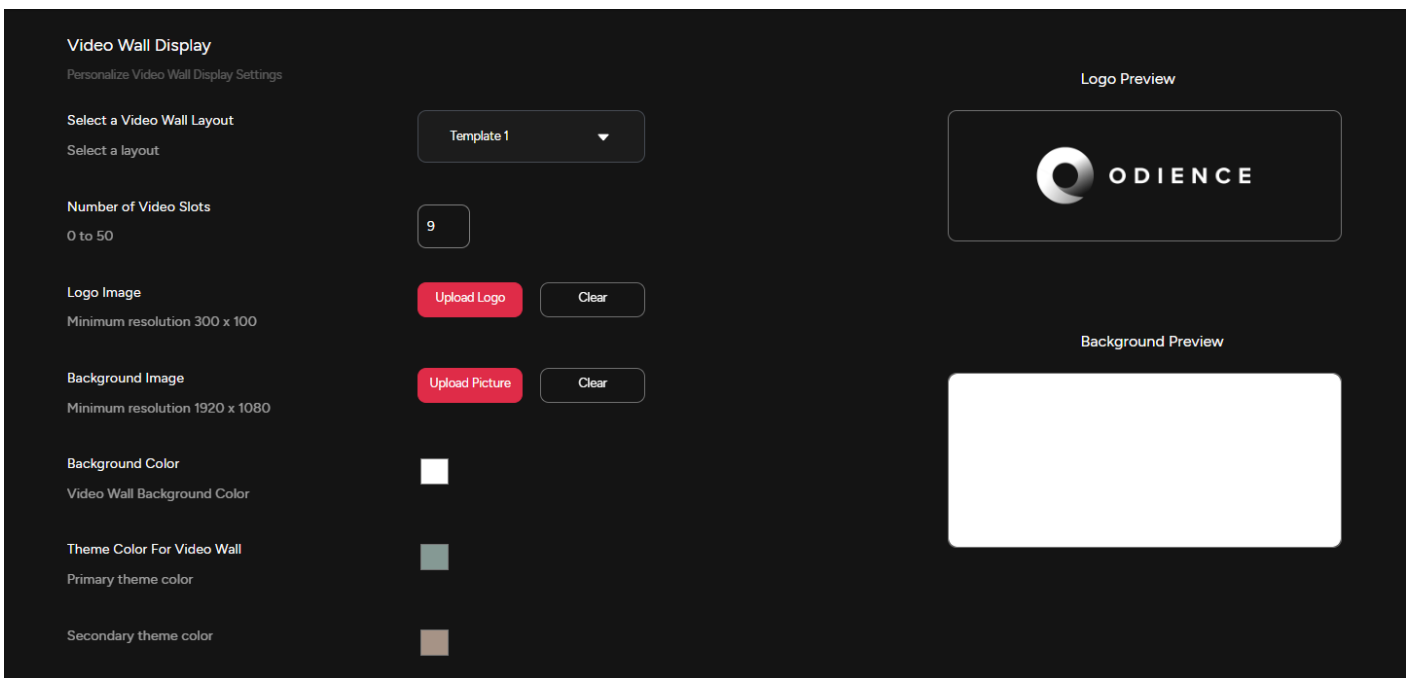

## Launch

2) After creating your Video Wall, click on your newly created device & launch Web Video Wall.

## Customize

2) Customize Video Wall display settings to fit your style.

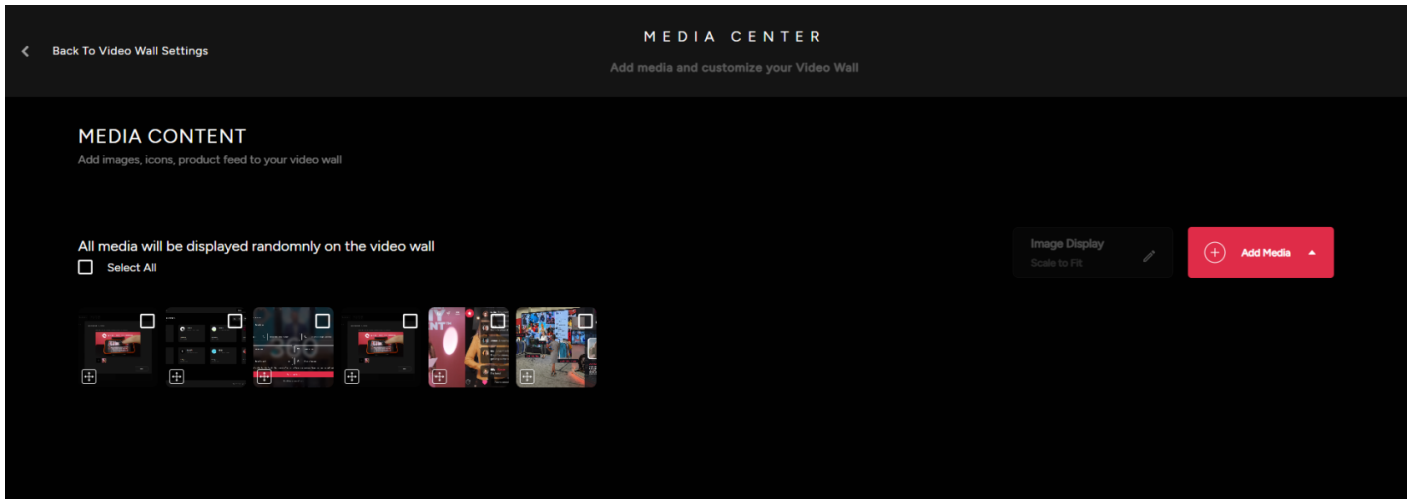

3) Personalize Stream Message Settings.

4) Personalize Poll Bot Display Settings.

## Media Content

5) Customize & manage the content that will appear on the Video Wall. Upload images, videos, import items from Event Product Feed or add icons from our icon packs.

# Resume Video Wall

Contact customer service for more information about Odience Resume Plugins.

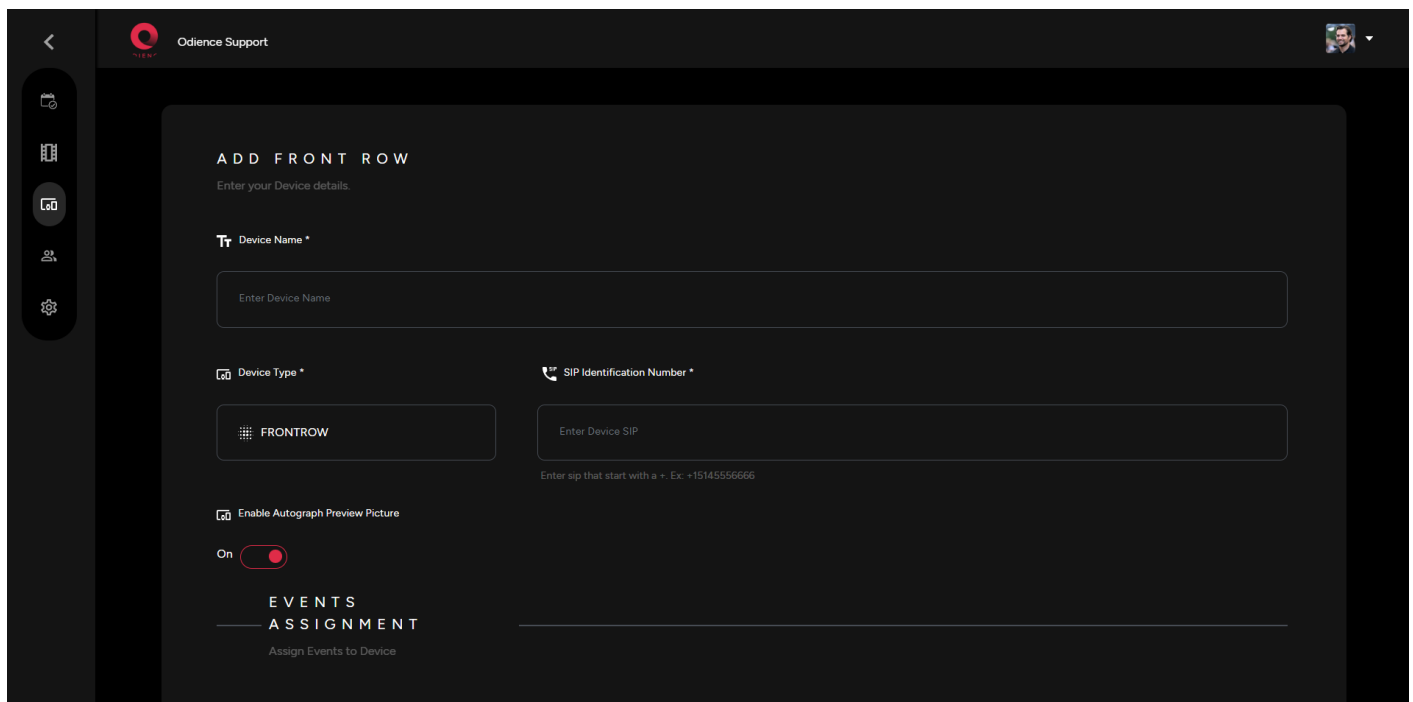

**Note:** Resume Video Walls is only available for Pro and Enterprise accounts. For more information on different accounts, see our guide on [Account Types](#).

# Create Front Row Device

**Note:** Front Row is only available for Pro and Enterprise account users. [Click here to upgrade to a Pro account.](#)

## Create Front Row Device

1. Create Front Row device by entering a name, assign it to an event and then add device.

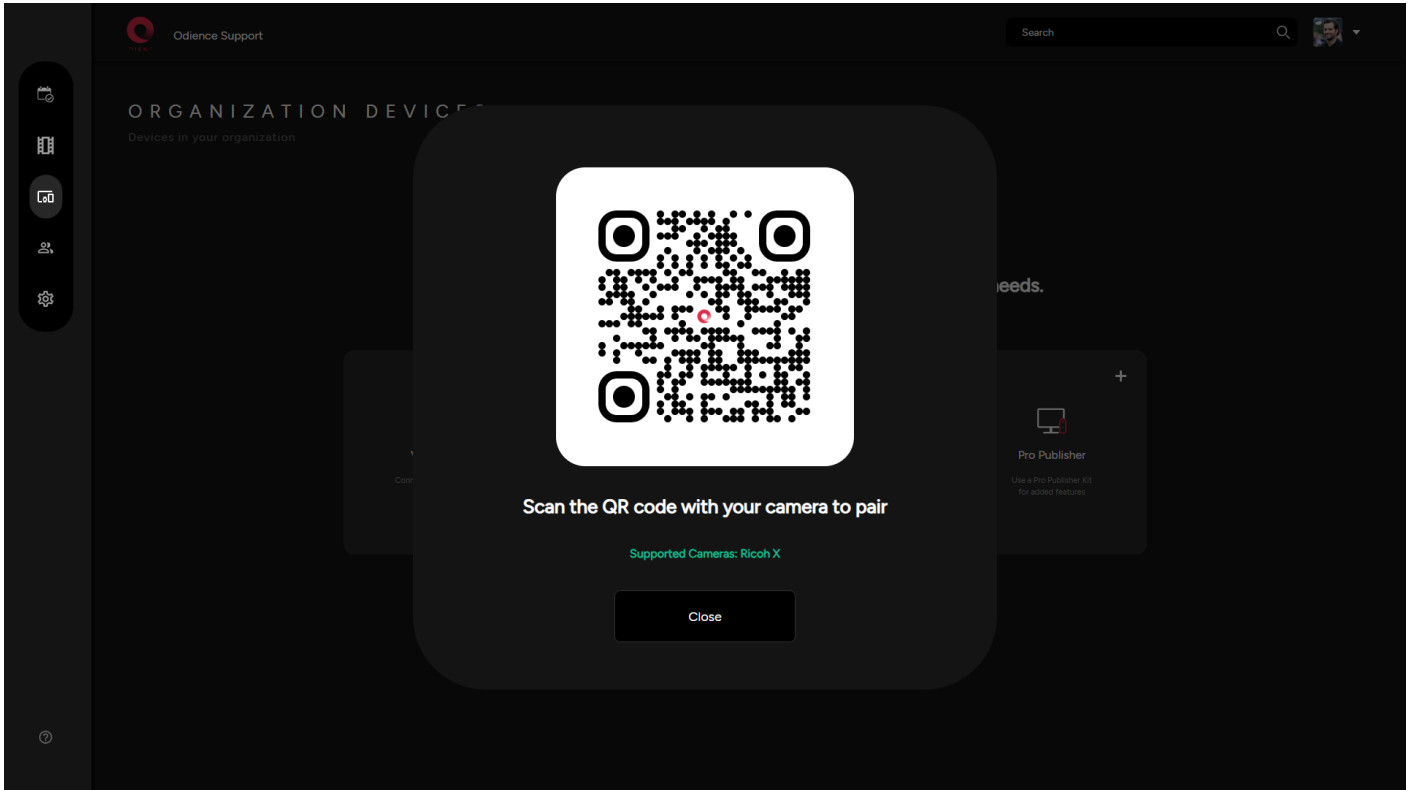

The screenshot shows the 'Odience Support' interface with a dark theme. On the left is a vertical sidebar with icons for home, calendar, device management, users, and settings. The main content area is titled 'ADD FRONT ROW' and includes the instruction 'Enter your Device details.' Below this are three fields: 'Device Name \*' with a text input box containing 'Enter Device Name'; 'Device Type \*' with a dropdown menu showing 'FRONTROW'; and 'SIP Identification Number \*' with a text input box containing 'Enter Device SIP' and a note below it: 'Enter sip that start with a +. Ex: +15145556666'. At the bottom, there is a toggle switch for 'Enable Autograph Preview Picture' which is currently turned 'On'. Below the form is a section titled 'EVENTS ASSIGNMENT' with the subtext 'Assign Events to Device'.

2. Assign Device to an event.

**Note:** Front Row is only available for Pro and Enterprise account users. [Click here to upgrade to a Pro account.](#)

# 360° Cameras

- Scan the QR code with your camera to pair. The only supported camera is the Ricoh X

\*More details to be included once Ricoh X pairing flow is reviewed

# Pro Publisher

- For more information on Pro Publisher device, email us at [info@summit-tech.ca](mailto:info@summit-tech.ca) or contact us [here](#).

The screenshot shows a mobile application interface for 'Odience Support'. The main content area is titled 'REGISTER PUBLISHER DEVICE' and includes the following elements:

- A sub-header: 'REGISTER PUBLISHER DEVICE' with a note: 'The device must first be registered before use.'
- A section for 'Registration Code \*' consisting of four empty input boxes.
- Instructions: 'Turn on the computer provided in the Pro Publisher kit to obtain your registration code.'
- Two input fields: 'Pro-publisher Name \*' with placeholder 'Enter Device Name' and 'Password \*' with placeholder 'Enter Device Password'.
- A red 'Register' button at the bottom right.
