

# Create Front Row Device

**Note:** Front Row is only available for Pro and Enterprise account users. [Click here to upgrade to a Pro account.](#)

## Create Front Row Device

1. Create Front Row device by entering a name, assign it to an event and then add device.

The screenshot shows the 'Odience Support' interface. At the top, there is a navigation bar with a back arrow, the 'Odience Support' logo, and a user profile icon. A vertical sidebar on the left contains several icons. The main content area is titled 'ADD FRONT ROW' and includes the instruction 'Enter your Device details.' Below this, there are three input fields: 'Device Name \*' with a placeholder 'Enter Device Name', 'Device Type \*' with a dropdown menu showing 'FRONTROW', and 'SIP Identification Number \*' with a placeholder 'Enter Device SIP' and a note 'Enter sip that start with a +. Ex: +15145556666'. There is also a toggle switch for 'Enable Autograph Preview Picture' which is currently turned 'On'. At the bottom, there is a section titled 'EVENTS ASSIGNMENT' with the subtext 'Assign Events to Device'.

2. Assign Device to an event.

**Note:** Front Row is only available for Pro and Enterprise account users. [Click here to upgrade to a Pro account.](#)
